CADENA DE VALOR

Evolución de los Índices de Precios en las tres posiciones de la cadena de valor de la leche en España. Año Base 2010=100

Todos los índices están elaborados a partir de los precios en posición de salida de cada eslabón de la cadena de valor y sin incluir el IVA.

(1*) Índice de precios pagados al productor por la leche cruda en posición salida de la explotación. MMO

(2*) Índice de precios percibidos por la industria por los productos lácteos fabricados y comercializados en España en posición salida de fábrica. INE

(3*) Índice de precios pagados por el consumidor por los productos lácteos en la distribución. BDCH-MAGRAMA y EUROSTAT
