Better Training for Safer Food Initiative

Susanne Münstermann

Better Training for Safer Food is an initiative of the European Commission aimed at organising an EU training strategy in the areas of food law, feed law, animal health and animal welfare rules, as well as plant health rules.

2nd Quarter 2017
Context and Outlook - Optimisation

Module 6.4
Optimisation

- Optimisation of animal IRT processes and systems is always ongoing.
- It may reflect statutory or non-statutory needs and pressures.
- It may involve any of the components of animal IRT (see the following slide) considered in the introduction and covered in this course.
- Reference is made to the questions/problems raised by participants on Monday afternoon.
The diagram illustrates the EU Legal Basis for Food Safety, with a focus on the following components:

- **Holdings**: Information on holdings related to food safety.
- **Devices**: Devices used in the monitoring and control of food safety.
- **Movements**: Records of movements of food products.
- **Database**: A central repository for data related to food safety.
- **Control**: Mechanisms for controlling food safety risks.
- **Risk Analysis**: Processes for analyzing risks associated with food safety.
- **Animal Health**: Information and measures related to animal health.
- **Other Uses**: Additional applications of the food safety database.
- **Costs, Finances**: Funding and budgeting for food safety programs.

The diagram emphasizes the interconnection between these components, indicating a comprehensive approach to ensuring food safety in the European Union.
Thank you for your attention!
Better Training for Safer Food is an initiative of the European Commission aimed at organising an EU training strategy in the areas of food law, feed law, animal health and animal welfare rules, as well as plant health rules.
