

## International Day for Biological Diversity 2024

### Background

The United Nations proclaimed 22 May as the [International Day for Biological Diversity \(IDB\)](#) to increase understanding and awareness of biodiversity issues. This universal observance commemorates the adoption of the text of the Convention on Biological Diversity (CBD) on 22 May 1992 and provides a unique opportunity to foster wide support for the Convention, its Protocols and related action frameworks, including the goals and targets of the Kunming-Montreal Global Biodiversity Framework—the Biodiversity Plan.

The 2024 edition of IDB offers ample opportunities for engagement with a wide range of actors and stakeholders. The campaign proposed by the Secretariat of the CBD seeks to bring about a surge of awareness and to increase commitment in the lead-up to the sixteenth meeting of the Conference of the Parties to the CBD that will take place from 21 October to 1 November 2024 in Cali, Colombia.

In addition to the expected celebrations around the world, IDB 2024 will coincide with two meetings of the subsidiary bodies of the Convention on Biological Diversity, namely: the twenty-sixth meeting of the Subsidiary Body on Scientific, Technical and Technological Advice (SBSTTA 26, 13-18 May 2024) and the fourth meeting of the Subsidiary Body on Implementation (SBI 4, 21-29 May 2024). Celebrations to be held in Nairobi with the representatives of the Parties, observers and guests, will highlight progress and offer opportunities to advocate bolder action in the implementation of the Biodiversity Plan, translating globally agreed targets into national action.

### Theme of IDB 2024: “Be Part of the Plan”

The chosen theme is a call to action to halt and reverse the loss of biodiversity. Governments, indigenous peoples and local communities, non-governmental organizations, lawmakers, businesses and individuals are encouraged to highlight the ways in which they are supporting the implementation of the Biodiversity Plan. Everyone has a role to play and therefore, can *Be Part of the Plan*.

### Logo of IDB 2024

The logo files will be available for download from the IDB 2024 webpage: [www.cbd.int/idb](http://www.cbd.int/idb)

### Official IDB 2024 hashtags

- Primary: #BiodiversityDay
- Secondary: #PartOfThePlan #ForNature

### Structure

The celebration of IDB 2024 will be two-fold:

- A **global outreach campaign** supported by the CBD Secretariat, including through the provision of action-oriented messages and visual assets, where national institutions, partners, stakeholders and members of the public are invited to organize in-person events and engage in digital awareness-raising on social media.
- **Advocacy and engagement with Parties** aiming to showcase progress accomplished in the implementation of the Biodiversity Plan and to advocate swifter action by other Parties, including in the preparation of adequately funded and integrated National Biodiversity Strategies and Action Plans (NBSAPs), which constitute the primary vehicle for national implementation of the Biodiversity Plan.

By blending communication, awareness and advocacy, the global celebration of IDB 2024 is expected to promote a whole-of-government, whole-of-society approach to the implementation of the Biodiversity Plan.

Activities will include:

- A digital campaign catalyzed by the CBD Secretariat, with wide support from partners, including members of the Informal Advisory Committee on Communication, Education and Public Awareness (nominated by the Parties to the CBD). This campaign is aimed at the public at large and will seek to increase awareness by harnessing social media (Instagram, LinkedIn, Twitter (X), Facebook, YouTube).
- [Celebrations](#): any in-person or online events or activities organized around the world to mark IDB. Organizers of celebrations are invited to submit their plans to the [Secretariat](#) for sharing on the [website](#).
- [Wave of Solidarity](#): [messages of support received from around the world and featured on the webpages](#). On IDB, the messages are shared in different time zones on social media.
