Formación  
**Agroalimentaria**  
Siembra, Crece y Cosecha tu futuro

---

---

---

---

---

---

---

---

## ¿Por qué formarte en el sector agroalimentario?

Te abre las puertas a **profesiones que desempeñan un importante papel en la sociedad**: contribuyen a **garantizar el suministro de alimentos, conservar el medio ambiente y la biodiversidad**.

Presenta **elevadas tasas de inserción laboral**: es un sector con grandes **perspectivas de futuro** donde la **innovación** y la **tecnología** juegan un papel esencial para adaptarse al cambio climático y a las nuevas demandas de los consumidores.

- Permite **obtener alimentos y otras materias primas** fundamentales para la supervivencia de la especie humana.
- Es un motor decisivo de la economía española, por su **vocación exportadora e innovadora**.
- Tiene muchas y variadas salidas profesionales con **gran inserción laboral**.
- Ofrece la posibilidad de estar en **contacto directo con la naturaleza**.
- Fomenta la **sostenibilidad de recursos naturales** como la tierra, el agua y la energía, contribuyendo a la economía circular y a la bioeconomía.

## ¿Qué es el sector agroalimentario?

Es un **sector estratégico para la economía española** que engloba todas aquellas actividades relacionadas con la **producción y comercialización de alimentos**, como son la agricultura, la ganadería, la silvicultura, la pesca, la industria alimentaria, y la distribución y logística alimentarias. Es actualmente **uno de los sectores más innovadores y de mayor crecimiento económico**.

## Oportunidades de empleo

Las nuevas demandas de los consumidores y la búsqueda de formas de producción más sostenibles ofrecen grandes oportunidades de empleo y de emprendimiento en **ámbitos relacionados con la alimentación, la energía, la salud y el medio ambiente**.

### Agroindustria 4.0

España se ha consolidado como "Foodtech Nation", situándose como **cuarta potencia agroalimentaria a nivel europeo. Internet de las Cosas (IoT), Big Data, la Inteligencia Artificial, Blockchain, la robótica y la biotecnología** aplicados a la agricultura y la alimentación han entrado con fuerza en este sector por su capacidad de **optimizar el uso y la gestión de recursos naturales**.

## Medio ambiente y biodiversidad

Llegar a un **compromiso entre el suministro de alimentos, la conservación del medio ambiente y la biodiversidad** constituye un reto para los futuros profesionales de este sector.

## Innovación

La inversión española en *startups* de *foodtech* se ha triplicado en 2022, superando los 700 millones de euros, lo que sitúa a **España en el top 10 mundial y una referencia internacional**.

Cada vez son más necesarios **profesionales que diseñen, desarrollen y apliquen innovaciones dirigidas a contribuir a las nuevas demandas de la sociedad**, como son los nuevos alimentos funcionales o los nuevos modelos y tendencias de consumo (*quick commerce*, *packaging* alimentario y sistemas de producción sostenible).

## Distribución y comercialización

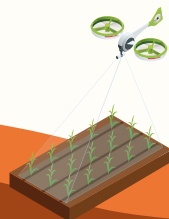

Los cambios en los hábitos de compra, nuevos conceptos de carga y transporte de productos alimentarios, y una creciente variedad de artículos requieren una **cadena de suministro omnicanal eficiente**.

Cada vez son más las empresas del sector alimentario que quieren **optimizar sus procesos de logística alimentaria para ofrecer un servicio más rápido y eficiente**. Los procesos del comercio físico y de las tiendas online se configuran de forma inteligente y rentable, teniendo en cuenta el aumento de la calidad del servicio para el cliente.

## Otras oportunidades

Las formaciones agroalimentarias ofrecen numerosas y diversas salidas profesionales, tanto en el ámbito privado como en el público. El **Cuerpo de Ingenieros Agrónomos del Estado** y el **Cuerpo Nacional Veterinario** ha contribuido desde 1882 a **diseñar y aplicar políticas agrarias y promover el desarrollo del medio rural** en nuestro país.
